Customization Of Brikk App

1. Update URL -

a. To connect the app with your desired URL, update the following file:

Src/Config.js file

b. Now, update the admin URL: export const ADMIN_URL="https://"

2. Splash Screen Change

To customize the app's splash screen, update your logo in the following directory:

android\app\src\main\res\drawable folder

Now, replace your desired image with

launch_screen.png

3. Splash Name

Use the same image as the one placed in the drawable folder for the splash screen.

Android:

Navigate to the following file:

- android\app\src\main\res\layout.xml file
- ImageView android : src = "@drawable/ same as drawable folder splash image "

iOS:

Go to:

- ios\utillz\LaunchScreen.storyboard
- Set the Image View's Image property to the name of your splash screen image (e.g., SplashScreen).

4. Change App Icon

Android:

Navigate to the following directory:

- android\app\src\main\res folder
- Change 5 app icon images with these folders
 - o mipmap-hdpi
 - o mipmap-mdpi
 - o mipmap-xhdpi
 - o mipmap-xxhdpi
 - o mipmap-xxxhdpi

Alternatively, you can generate and customize these icons using the **Asset Studio** in Android Studio. To do this, right-click on the app directory and follow the instructions provided by Asset Studio.

con Type:	Launcher Icons (Adaptive and Legacy)	Preview		- xhdpi 👻 🗹 Sho	ow safe zone 🔲 Show ç
Name:	ic_launcher			ARTISS.	diskinistin
